

4 + + + +

800,000 PREDICTED AS CITY DRAFT TOTAL

Cards of Absentees Arriving
by Thousands Already and
More Expected.

ALIENS DENOUNCE KINGS

Only 49,475 Register as Sub-
jects of Enemy Govern-
ments and Monarchs.

It is expected that the names of about 70,000 men between 18 and 45, who were absent from their New York homes on registration day will bring the total of the city enrolment well beyond 800,000.

According to the best figures available yesterday at draft headquarters, 744,029 men enrolled Thursday in the five boroughs, but returns from six draft boards are incomplete and the total may go higher by the time all the 189 lists have been revised and verified.

The number of alien enemy registrants surprised a number of forecasters, who had expected that it would be much more than 49,475. But even the enemy aliens only a comparatively small number are Germans. Most of them are subjects of Austria-Hungary and represent all the tongues and races comprehended within the empire. Thousands of the men classed as alien enemies are of Polish, Czech, Hungarian, and other nationalities. Others who had been classified as enemy aliens are Bulgarians and various Oriental subjects of the Sultan of Turkey.

Absentees' Cards Arrive.

Registration cards from New York men who were absent from the city Thursday reached draft headquarters by thousands yesterday, about 30,000 coming between morning and late afternoon. Another 40,000 should reach headquarters within the next few days and finally there will arrive the names of those men who were in foreign countries or on the high seas when registration day came. These men are not required to register until their return.

Local draft boards will set to work immediately selecting the names of men between 18 and 27 who will be in the first group called to the colors. Figures as to the number of men within these ages and the number of registrants between 18 and 27 will not be available until the classification has been made.

Figures from Albany, incomplete as the New York figures are, show that yesterday an increase of 6 per cent. over the estimate of the Provost Marshal General, Board 1 of Watervliet, with 4,515 registrants, completed the task of arranging the registrants alphabetically and allotted each man his serial number last night.

Newark in filing its report of 60,474 names sent the name of Lieut. Kapitän Franz von Rintelen, a Federal prisoner there, serving a three year sentence for having conspired against this Government. He is just an 40 years old; occupation, officer in the German navy; residence Maxson strasse 5, Berlin; nearest relative, Franz, a Lilliputian, Rintelen, at the same address. His card describes him as tall and slender with blue eyes and fair hair.

Major C. Brown White, in command of the British and Canadian recruiting mission, issued the following admonition yesterday to such British and Canadian subjects as it may concern:

"I believe many British and Canadian are under the impression, since registering Thursday that they are debarred from volunteering with the British and Canadian forces."

May Still Volunteer.

"I desire to call the attention of all loyal British and Canadians to the fact that by a ruling of the draft treaty now in force between the Government of the United States and Great Britain they still have a limited time in which to volunteer. The British and Canadian recruiting mission will accept enlistments for a few days longer, but thereafter all British and Canadians in the United States will be subject to the United States selective service draft."

The headquarters of the mission is at 220 West Forty-second street. Jewish aliens of allied countries desiring to enlist in the Jewish battalion for service in Palestine will be accepted at the mission for a few days longer, even though registered under the United States draft law. By applying at the mission they will be directed to comply with the United States regulations.

CHINESE TWINS WILL FIGHT.

Brother of Aviator Not to Claim Exemption.

Francis and Ignatius Tau, the eighteen-year-old Chinese twins who registered for the draft in Ossining Thursday, made no claim for exemption, but explained they would be glad to fight for the United States.

The boys, who are students under Father James E. Walsh at the Catholic Foreign Mission Society Seminary, have been inspired by the gallantry of their brother, Lieut. Stephen Tau, the Chinese aviator in the French army. Neither twin is going to try to evade military duty because he is a Chinese subject.

CROWDER TELLS OF DRAFT'S SUCCESS

Continued from First Page.

made known its stand toward the new draft in a statement instructing regional directors to claim deferred classification for employees embraced in the following list:

General officers, master mechanics, roundhouse and shop foremen, machinists, blacksmiths, boiler-makers, tin and copper smiths, pipefitters, electricians, freight car and passenger car repair men and inspectors, helpers and apprentices of the foregoing; chemists, locomotive inspectors, gang leaders, superintendents and assistant superintendents, train masters and assistants, train masters, train dispatchers and directors, yard masters and assistants, road foremen of engines and assistants, travelling engineers, foremen, inspectors, locomotive engineers, and motormen, locomotive firemen and helpers, conductors and brakemen and flag men, train baggagemen and express messengers, yard foremen and helpers, hostlers, engine house men, telegraphers and telephone block operators, telegraph clerks, maintenance of way engineers, division engineers, road masters, field engineers, supervisors, construction foremen, section foremen, bridge building and water service foremen, bridge building and ship and wharf carpenters, signal maintenance men and telegraph and telephone maintainers.

Advice to Railway Managers.

It is estimated that two-thirds of the more than 2,000,000 employees will be included in the deferred classification groups. The Railroad Administration issued this general statement to guide the regional directors:

"As to employees not in the foregoing list the Federal managers should exercise the greatest care and discretion to aid in obtaining deferred classification for those clearly necessary, while refusing from taking this step in other cases. Where a given position can be reasonably filled by promotion or by the employment of an outsider, male or female, the Federal managers should not classify such employees as deferred."

"The mere question of inconvenience or increased expense is not sufficient for refusal to classify an employee as necessary. But where on account of the character of the work or the complete lack of availability of another to do the work the existing incumbent is really necessary the Federal managers should take all practical steps to secure deferred classification."

"The railroad under Government control is an essential industrial agency. Its necessary employees should be given deferred classification. It is desired that the Federal managers give this matter their active personal attention to make sure that deferred classification is properly claimed for employees that are necessary and also that no such claim is made where it can be reasonably avoided, since the making of unnecessary claims is both unfair to the Government in its work of creating the necessary military and naval forces and injurious to the Railroad Administration in its effort to secure deferred classification for employees who are really necessary."

COMMISSION BAN TO BE LIFTED

Many Army Jobs in Washington Soon Will Be Filled.

WASHINGTON, Sept. 13.—The ban on the issuance of commissions in the army, ordered by Secretary Baker a month ago pending the new draft, is about to be removed on recommendation of the Chief of Staff. This will affect hundreds of applications on file here in all of the branches of the service.

The removal of the ban will be made with certain conditions understood to provide for the induction of the successful applicants theoretically through the draft, but actually they will not be called like the other draftees. There will be some restrictions, applying chiefly to those in Class 1. An order giving details of the new plan of issuing commissions will be published in a few days.

WORK OR FIGHT IS PRESIDENT'S FIAT

President Demands Bridgeport Strikers Return at Once or Go on U. S. Blacklist.

MEN SUBJECT TO DRAFT

Drastic Message Tells of Tak-
ing Munition Plant for Defy-
ing Labor Board's Decision.

Special Despatch to The Sun.
BRIDGEPORT, Conn., Sept. 13.—The 6,000 striking machinists of Bridgeport will not be back at work Saturday or even Monday, in spite of the fact that the President's letter urging them to return to the munitions plants upon penalty of being blacklisted for one year by all Government plants was published today in all local papers. The trouble, it seems, is that the President's message did not reach the machinists in any formal manner. They met at 2 o'clock in the Casino Theatre after several of their leaders had read the message read to them from newspaper offices. The strikers said they would not take the word of the newspapers but wanted the President's official communication.

Business Agent Samuel Lavit announced he had heard nothing from the President direct and thought a communication ought to come direct, since the strikers had appealed direct to the President to take over the plants that they had a copy but thought the machinists could read the letter in the afternoon paper.

The machinists then voted to adjourn the strike meeting until Monday at 2 o'clock when they hoped there would be a formal communication to act on. While there were no public statements, the strikers would openly defy the President there were many covert suggestions that they would merely take their fight with the manufacturers under cover and keep it up indirectly to the best of their ability. Quietly the machinists were advised to "beat it" out of the city before it became necessary to formally accept the President's demands.

Samuel Lavit is said to-night to have resigned as business agent with a view to appealing to all machinists in the country against the Edlitz award of the National War Labor Board.

New Policy Far Reaching.

At the same time, as if to show that capital and labor must bow to the same principle, official announcement was made that the War Department had taken over the plant of the Smith & Wesson Company of Springfield, Mass., which had also refused to abide by a decision of the National War Labor Board.

This new policy respecting labor, decisive and unmistakable, may have a far reaching effect upon the political and economic structure of the nation. In his letter the President puts the workers who refuse to abide by their agreement, "making it a scrap of paper," in the class of slackers who are to be drawn into the army wherever such a course is possible.

Official Washington is watching closely the effect of this decisive action. It is hoped here that the Bridgeport men will see the light and make necessary the bringing of pressure of the entire war organization against them as quitters.

The new policy means an effective blacklist in industrial employment, as the United States employment service

of the Department of Labor is doing all recruiting for essential and non-essential industry, as well, and is passing on all applicants.

Every Government agency has been instructed and has agreed in enforcement of the policy and will exercise every care to prevent the employment of the Bridgeport men who refuse to abide by their agreement.

Further than this, industrial deferment for these men in the draft will be withdrawn and they will be called into the army by their draft boards if they are otherwise eligible for service.

The President in his letter tells the workers that having exercised a drastic remedy with recalcitrant employers, it is his duty to use means equally well adapted to the end with lawless and faithless employees.

President Warns Strikers.

The President's letter addressed to the Bridgeport District Lodge of the International Association of Machinists and other striking workmen of Bridgeport, Conn., follows:

"GENTLEMEN: I am in receipt of your resolutions of September 6 announcing that you are in a strike against your employers in Bridgeport, Conn. You are members of the Bridgeport branches of the International Union of Machinists, as such and with the approval of the national officers of your union you signed an agreement to submit the questions as to the terms of your employment to the National War Labor Board, and to abide the award which in accordance with the rules of procedure approved by me might be made."

The members of the board were not able to reach a unanimous conclusion on all the issues presented, and as provided in its constitution the questions upon which they did not agree were carried before an arbitrator, the unanimous choice of the members of the board.

The arbitrator thus chosen has made an award which more than 90 per cent of the workers affected accept. You who constitute less than 10 per cent, refuse to abide the award, although you are the best paid of the whole body of workers affected and are, therefore, least entitled to press a further increase of wages because of the high cost of living.

A Breach of Faith.

"But whatever the merits of the issue it is closed by the award. Your strike against it is a breach of faith calculated to reflect on the sincerity of national organized labor in proclaiming its acceptance of the principles and machinery of the National War Labor Board."

"If such disregard of the solemn adjudication of a tribunal to which both parties submitted their claims be tolerated, it would be tantamount to a complete breakdown of the principle of arbitration. If errors creep into awards of papers, it is submission to the award with an application for rehearing to the tribunal. But to strike against the award is dishonorable and dishonorable."

"The Smith & Wesson Company of Springfield, Mass., engaged in Government work, has refused to abide the mediation of the National War Labor Board and has flaunted its rules of decision approved by Presidential proclamation. With my consent the War Department has taken over the plant and business of the company to secure continuity in pro-

duction and to prevent industrial disturbance.

"It is of the highest importance to secure compliance with reasonable rules and procedure for the settlement of industrial disputes. Having exercised a drastic remedy with recalcitrant employers it is my duty to use means equally well adapted to the end with lawless and faithless employees."

"Therefore, I desire that you return to work and abide by the award. If you refuse each one of you will be barred from employment in any war industry in the community in which the strike occurs for a period of one year. During that time the United States Employment Service will decline to obtain employment for you in any war industry elsewhere in the United States, as well as under the War and Navy Departments, the Shipping Board, the Railway Administration and all Government agencies, and the draft boards will be instructed to reject any claim of exemption based on your alleged usefulness on war production. Sincerely yours,

"WOODROW WILSON."

Labor Official's Views.

Frank P. Morrison, secretary of the American Federation of Labor, said to-night:

"The refusal of the machinists of Bridgeport to abide by the award made through the machinery of the National War Labor Board and their further refusal to heed the advice and instructions of President Johnston of their international organization to return to work is to be deeply regretted."

"The officers of the international organizations have without exception insisted upon all agreements entered into—whether with the Government or private concerns—being complied with."

"While there have been a number of employers who have absolutely refused to submit their grievances to the War Labor Board and the Bethlehem Steel Company and others have refused to comply with the award of the War Labor Board this is the first instance that has been brought to my attention where the members of organized labor have failed to comply with an award of the War Labor Board, even though the award or decision did not reach their expectations."

SHIPYARDS NEED 200,000 MEN BY JAN. 1

Charles M. Schwab to Confer With Gen. Crowder.

PHILADELPHIA, Sept. 13.—The shipyards of the country may need 200,000 more men by January 1 if the shipping programme is to be carried out, said Charles M. Schwab, Director General of the Emergency Fleet Corporation, here to-night. He will confer with Provost Marshal General Crowder next Tuesday on the matter of draft exemptions in order to get more men for the yards. Large expectations are based upon the men in non-essential industries coming to the plants.

Mr. Schwab, however, does not favor blanket exemptions for ship workers, for he thinks that no group of employers should be enabled to hire men when and where they please and have them exempted as a class.

MUNITION MEN RESTIVE WERE Trouble Threatened Over Failure to Get Higher Wage.

E. J. Deering, business agent of the local body of the International Association of Machinists, stated yesterday that every effort is being made to prevent a strike of 5,000 munition makers in New York who have not received the higher wage rate being paid in most factories. The machinists have been holding
